

Brass Line Taps Tin plated Line taps

Brass Line Taps Tin Plated Line Taps

BRASS LINE TAPS BRASS TIN PLATED LINE TAPS EARTHING CONNECTORS BRASS LINE TAP MANUFACTURERS

We are manufacturers suppliers from Jamnagar India of all kinds of Brass Line taps. Brass line taps are made from high tensile brass BS2874C2112. Threads are formed by rolling process giving nut extra clamping force. These are used for connecting Copper and Aluminium conductors under pressure pads.

Conductor size (mm ²)	A	B	C HEX A / F	D NUT A / F E		Product Code
6	20	4.10	12.6	13.25	4.90	A1metallics-6
10	26.80	4.80	12.80	19.10	5.70	A1metallics-10

300	72.70	24.50	42.20	50.00	14.20	A1metallics-300
400	76.70	26.50	48.20	56.00	16.20	A1metallics-400
500	80.50	30.50	55.20	65.00	16.20	A1metallics-500

Finishing: Tin plated, Nickel plated or Silver plated. Also Available Brass line taps in natural finish.

sizes of Availability: Split Bolt Connectors are available from 16 mm² 35mm² 50mm² 75mm² 125mm² 180 mm² 500 mm². Higher or lower sizes are possible with customer demand.

FEATURES:

- Coating and Tin plating makes Resistive to adverse climatic conditions
- Unmatched cable connection performance
- High Tensile Strength
- Variety of sizes, finishes and threads
- International grade Brass and quality
